

SeaShield Marine Systems

Features

- Prevents infestation of marine borers
- Prevents leaching of creosote and/or ACZA into the water
- Can accommodate irregular shaped timber piles
- Provides abrasion and puncture resistance in aggressive coastal environments
- Simple design allows for easy installation
- Adds years of service life to piles
- Long, maintenance-free service life
- Proven 85 year history of sealing out oxygen with Denso Petrolatum Tape

Series 90

Timber pile protection system that includes petrolatum tape and a protective outercover

SeaShield Series 90 System provides timber pile protection against marine borer destruction and deterioration due to weathering. The system eliminates existing marine borers and protects against further infestation. By using Denso Marine Piling Tape and an outercover, the pile is encapsulated, thus removing all oxygen from reaching the timber pile. The system kills the marine borers inside the pile and those outside can not penetrate the barrier. The system also acts as a preservative and eliminates leaching of creosote and/or ACZA into the water.

Denso[®]
DENSO NORTH AMERICA

SeaShield Series 90 consists of Denso Marine Piling Tape preventing marine borer destruction and an outcover for mechanical protection of tape.

SeaShield Series 90 System

The Series 90 System can accommodate hour-glassed piles, posting, bracing and other timber support members. This system is easily installed and does not require any special or expensive equipment. It is the most effective, economical and long-term solution to extending the life of new or existing timber piles.

The Series 90 System utilizes the proven Denso Marine Piling Tape for eliminating oxygen from reaching the pile and is highly conformable to all shapes and irregularities of the pile. The outcover is used for mechanical protection of the tape. No seals are required on the outcover, thus eliminating the need for a tight seal of the jacket.

For further details please refer to the engineering specifications for SeaShield Series 90 System.
